NOTICE

Roadmap towards Green Campus of West Bengal State University

As discussed in the all-faculty meeting held on 30th July, 2019, the IQAC and the NAAC Committee requests the students, teaching and non-teaching staff of the University to NOT use any one-time-use plastic/thermocoll, keeping in mind the environmental damage that these cause.

This is in keeping with the rules laid down by The Solid Waste Management Rules of Govt. of India, 2016 since our University falls within the laws specified for ‘all gated communities and institutions with more than 5,000 m² area’.

Towards this aim, the following are advised for every department:

1) For seminars/workshops/conferences/any gatherings where food will be given by the department:
   a. Buy eco-friendly plates, now easily available in markets or at online sites.
   b. Consider arranging for buffet meals to ensure less wastage
   c. Use steel spoons instead of plastic. Do NOT use plastic drinking straws
   d. Do NOT accept food supplied in plastic packets
   e. Do NOT use small PET bottles to distribute water. Please arrange for a water dispenser and PAPER cups.
   A declaration from the Departmental Committee agreeing to not use plastic wherever possible will need to be given at the time of budget-approval to the University authorities, and then again at the time of expense-submission.

2) Arrangements will be made for waste segregation at source on all floors of the University buildings. Separate plastic bins will be set up for bio-degradable waste, paper-waste, metal (batteries, pens, etc) and unavoidable polythene waste (biscuit wrappers, plastic pens, etc). Teachers are requested to educate students on the differences between these wastes.
   These rules are to be followed from the month of August, 2019.
